

Book Sewing Machine SXB 400

Characteristics:

Book sewing machine is on kind of book binding machine which gathered signatures in paginal order form the collection machine can be sewed to form book blocks. Model SXB 400 book sewing machine adopts staples changes device, central lubrication system parallel control spring for sewing frame and had safety protection covers on all moving parts. Featuring smooth running, low noise, easy adjustment of sewing format and reliable sewing quality. It is widely used for both paper cover and hard cover binding.

Model SXB400 Book Sewing Machine adopts thick needles, small distance of each needle. It has two kinds of sewing modes: parallel and interlacing. For sewing the thin book sheet parallel mode sewing each sheet thread in the same position make the thread superposed on the book back producing the thread bubbles. To avoid the thread superposed interlacing mode sewing thread position interlace that make the book back more smooth. Machine has malfunction controlling for shorter sheet, broken thread, rolling book etc. Machine stop automatically after the book filled.

Technical Data:

Model	SXB 400
Min. sewing format (L*W)	150 x 80 mm
Max. sewing format (L*W)	400 x 300mm
Number of Stitches	Up to 11 Set
Length of Stitch	19 mm
Sewing Speed	85 Signature / Min
Main Drive Motor	0.75 KW
Overall Dimensions	2150 x 1600 x 1480 (L x W x H)
Net Weight
